

L&M Machining Center Inc.

Quality prototypes to production

1497 Poinsettia Avenue, #156
Vista, CA 92081
www.landmmachining.com
(760) 310-6074

Quality

- AS9100d & ISO9001:2015
 - QMS for Aviation, Space, and Defense Organizations
- ISO 13485
 - QMS for Medical Devices
- Kaizen
 - Culture of Continuous improvement

Reliable

- 32 years of successful operation
- Well trained, diverse, dedicated team
- **SBA Hubzone:** Small Business Administration Historically Underutilized Business Zone
- Veteran-owned

Customers

- Customers range from start-ups to Fortune 500 in electronics, medical, telecom, industrial, energy, defense and aerospace industries.

Secure

- Facility: We are continually focused on providing security for our customers and
- Data: NIST SP 800-171 cyber security
- ITAR
 - International Traffic in Arms Regulations Registered

Capabilities

- Prototyping
- Development (New Product or Redesigns)
- 5 Axis CNC Milling and Turning
- Precision Inspection/CMM
- Batch Run production
- Short and Long Run jobs
- Assembly

Materials

- Aluminum
- Plastic
- Stainless Steel
- Steel
- Brass
- Titanium
- High temp alloys

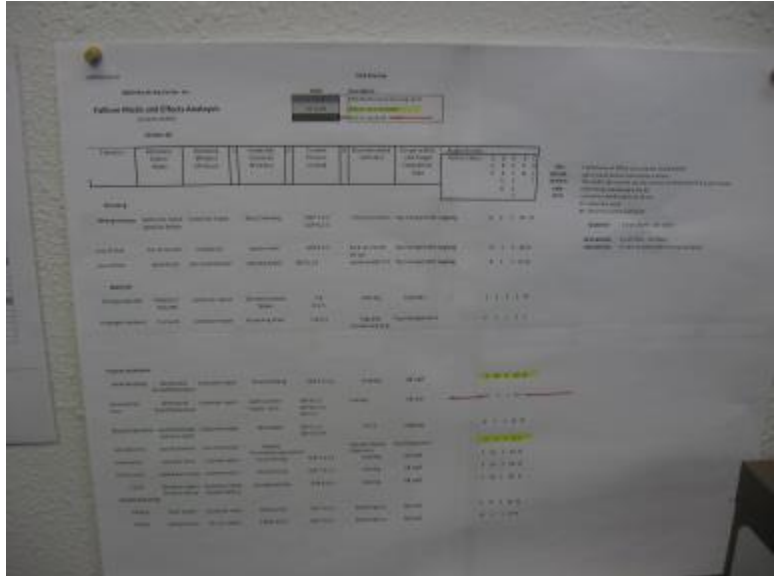

Assembly

- Complete products
- Full assembly available
- High quality and fast delivery

Risk mitigation/analysis

- 1. Continual monitoring of risks associated with every aspect of product realization via Failure Mode & Effects Analysis matrix.
- 2. Flow-down of known risk mitigation requirement to supplier by agreements.
- 3. Inputs from customers, suppliers and L&M's Q.M.S. are analyzed for further opportunities for improvement concerning risk mitigation.

The image shows a Failure Mode and Effects Analysis (FMEA) matrix document. The title 'Failure Mode and Effects Analysis' is prominently displayed at the top. The document is structured as a table with several columns, including 'Function', 'Failure Mode', 'Effects', 'Cause', 'Severity', 'Occurrence', and 'Detection'. The table contains multiple rows of data, with some cells highlighted in yellow. There are also handwritten notes and signatures on the right side of the document.

Scalability

- Extensive internal training provides unique opportunities to develop & grow the right staff in a challenging labor market.

“My name is Tracy. When I walked into L&M Machining Center, I had no prior experience in this field. With their confidence and training, I am thriving as a machinist. I love to learn, and this has been a wonderful career choice for me.”

Facility

- A 5,200 sq.' well-lit production area is designed to maximize process efficiencies, flow visualization, safety & encourage environmental responsibility.

Technology

- L&M employs and invests in state of the art equipment to meet and exceed challenging and continually changing customer needs.

Corporate Responsibility

- L&M Machining Center, Inc. is very active in promoting interest and sustainability of manufacturing in California.

Manufacturing day 2018 at L&M
